KING OF THE WEST WASHING MACHINE

Washing Day no Longer Dreaded by those who use the King of the West. THE REASON WHY EVERY FAMILY THE REASON WHY EVERY FAMILY should process these machines: Families enerally wash fifty-two times every year, or in other words, spend one-sixth of their time for labor in doing washing the ordinary way. By using this machine they can do the same work in one-fifth of the time usually required. Bloody fingers, sore backs, strained wrists and inhaling steam, consequent upon the old way of washing, are all avoided by using these machines. It does not require able-bedied rersuns to operate them. A boy or sirl, twelve or four-teen year of ago, can do as much work washing with these machines, in a few hours as one ablebedied woman can in a whole day by the usual process. The old process of builing clothes is done away with, and washing can be done with two-thirds less soap than the old way of using washboard and tub, and therefore you can save fuse enough in a short time to pay for the machine.

"KING OF THE WEST" Washing Machine defess all competition, and challenges overy acd all machines to wash a given number of pieces in the same time and as completely as the "King" will wash them. It is the only machine that will cruse all dirty streeks from scriebane's and collars of shirts, and all other olothes, that soop and scater will take out.

50,000 OF THESE MACHINES SOLD IN THE NORTHWEST IN ONE YEAR.

The South wash or we will come at any time or place in the city if you desire, and wash asything from a cambric handserchief to a double blanket, and do it well, quick and complete; and you only need see the "KING" wash to be convinced. Come and examine the machine, and you will other at once the King of all washing muchines, and you will have no other.

State and county rights for sale by Eti Thorn-burgh, at Central Hotel, Memphis, Tennessee The Gipson Wringer. The Gipson Wringer.

This wrincer is the most perfect for simplicity and durability ever invented. It is constructed upon scientific principles, which makes it the only useful, effective and perfect wringer in use. The EXPANSION GEARING roaders them more durable than any friction wringer can be, or any two wheel wringer, which, unless confined, unseen proceeds. This superiority makes the Gipson Wringer in fact, if not in name, the enty universal wringer now made. They wring much larger clothing, and just as small, and turn easier, than any other wringer. They are self-adjusting and adjustable. The rollers are of pure white substrained manner. It is this that enables us to warrant our wringer. The thumb-screws on top increase or lessen the pressure.

HOME CERTIFICATES. Musimis, February 12, 1869.

We the undersigned, having used the King of the West washing machine, pronounce it perfect for impellety, durability, labor-saving and common, and the only machine we have ever used that will wash all kinds of clothes clean, remove all streaks from soilars and wristlands, with less damase to clothe than by any other process. We chearfully recommend it to the public as the "King" of all washing machines. Eigned: Mrs Join Lehney, Lehner House: King & Hastings. Central Hotel: P. A. & E. Mahler, Franklin House: L. C.
